KEY COHORT INSIGHTS

- All customer cohorts begin with a **100%** retention rate in **Month 1**.
- Customer retention **declines sharply** during the **first 3–6 months**, indicating the highest churn risk occurs early in the customer lifecycle.
- Cohorts acquired in **later periods demonstrate relatively stable long-term retention after the initial drop-off**.
- Improving customer engagement during the **first 90–180 days** can significantly **increase long-term retention** and **customer lifetime value**.
- Retention strategies should prioritize **onboarding, personalized communication, and loyalty initiatives** during the early customer journey.
